Product Improvement: Ball Float Steam Trap G20N

Ball Float Steam Trap G20
Product improvement and model name change

MIYAWAKI would like to announce the following improvements made to the model G20:
1. Addition of a stainless steel protector to the air vent
2. Change of the design of the air vent plug
3. Change of the size of the air vent nut (19 mm k 17 mm)
4. Increase of the length of the air vent seat (+ 2mm)

Due to the improvement the model name will be changed to G20N.
The technical specification of the product has not been changed.
